Catch the Building Spirit – Update 6/17/21

The 2021 house has both floors built and the roof trusses installed.

Workers completed all the framing for both floors this week and a crane lifted the roof trusses.

Work to install roof sheathing will be the next task. The 2 story home is 1,300 sf, and will have a small front porch. You can contribute to the cost of the project by sending a check to CtBS,
1490 Forrer Blvd., PO Box 20100, Dayton OH 45420.

Consider volunteering too at www.daytonhabitat.volunteerhub.com.
Help us build a house for Saadia Koko and daughters.
